INTEGRATED MEDICAL PARTNERS  
Empowerment. Innovation. Results.

## SECURE YOUR PRACTICE'S FUTURE

For physician leaders who seek to be successful and remain independent in an increasingly dynamic market, IMP provides the critical resources necessary to fuel high-performing physician practices.

At IMP, we believe it is necessary for physician leaders to empower their clinicians to reach beyond their base clinical duties and even their administrative ones to proactively partner with hospital leadership to evolve the coordination and integration of care. The Physician Leadership Hierarchy of Needs outlines those critical steps in the process.
